Calendar.

- October—
9—Women's Institute tea at the home of Mrs A. E. Michael.
10—Meeting in Stony of supporters of Hon. Charles Stewart.
10—Meeting of U.F.A. Local at the Royal.
16—Chicken Supper at Union Church.
16—Dance at Huthorn Hall.
18—Dedication of Immanuel's Church Rosethal.
23—Aunt Mary's Family Album, a play by members of the Women's Institute.
28—Sitting of District Court, in Stony Plain.
29—Election of members to the House of Commons.
Nov. 6—Ings. Councillors meet in Stony Plain.
9—Thanksgiving Day.
12—Sale of lands, by Spruce Grove M.C.

Schoolhouse Burns.

A fire occurred Thursday night at Glory Hills which is likely to affect the youth of the district, when the twin schoolhouse there was totally destroyed by fire. For some time past the janitorial duties at the school have been performed by two of the senior pupils, in rotation, thus keeping down the expense of the school. It is thought that the pair on duty Thursday, when leaving, filled the stove with wood, to have the schoolroom warm the following morning.

Early in the evening flames were seen to be issuing from the west building, but by the time nearly residents arrived nothing could be done to extinguish the blaze, and in a short time each building completely down to its concrete foundation. Some of the contents were saved.

"LECKIE'S"

Men's Comfortable & Sturdy
WORK BOOTS.
for field, farm or general work
the boot that has stood
the acid test of wear.

PAUL WERNER,
Opposite Royal Hotel.

Voting Qualification.

The following are the general qualifications in every constituency, for those wishing to vote on the 29th inst.: "Any male or female who is a British subject, 21 years of age, and who has ordinarily resided in Canada for twelve months and in the riding for two months, before the issue of the writs, is qualified to vote."

U. F. A. Convention.

At the U. F. A. convention held at Onaway last week to nominate a candidate to contest West Edmonton Federal Riding, the names of Ald. East, Geo. Bevington and J. W. Leedy were put up.

Mr Geo. Bevington made a speech and withdrew his name as also did Mr Leedy.

Mr East withdrew his name but the convention refused to accept his withdrawal. The gentleman then asked for time to consider the matter, and it is understood he has accepted the nomination.

Mr Rae's Meeting at Duffield

Mr W. A. Rae, who is the candidate of the Liberal party in Peace River Federal Riding, held a meeting on Friday last, in the schoolhouse at Duffield.

The chair was taken by Mr Percy Faulks, the well-known merchant of that town.

Mr. Rae, in his address, dealt at length with the present, past rates on grain and commodities, and scolded the C.P.R. on account of its attitude to the Western farmer.

The other speakers were Dr. Outway of Stony Plain and Mr. McBride of Edmonton, who dealt with the general issues of the campaign.

LOCAL NEWS.

This is FIRE PREVENTION WEEK.

Rev and Mrs C. H. Reppert returned last week from a vacation spent with friends in Indiana.

Mr J. A. Barrie and family, of Edmonton Beach, have moved to the City, where Mr Barrie has purchased a store business.

Mr C. Price, the well-known Edmonton photographer, spent the week end with Mr. Philip Miller.

Mr Elliot resumed his duties at the local bank on Monday, after a two-weeks vacation.

Mr Bishop was in town yesterday, from Wainwright.

V. L. Kellough, until recently Stony's bus man, has moved to Edmonton with his family.

Mrs Russell, Edmonton, was visiting friends in Stony on Saturday.

Otto Wudel, Wetaskiwin, is in town this week.

Mr Arthur Pfister, the well-known mechanician, has accepted a position in an Edmonton garage.

Mr George Missier leaves next week for Dayton, Washington.

A Women's Institute tea will be held at the home of Mrs A. E. Michael on Friday, Oct. 9. Tea served from 4 to 6 p.m. Everybody come.

A meeting of Stony Plain U.F. Local will be held Saturday evening next at 8, in the Royal Parlors.

Hardwick's General Store shipped a car of potatoes on Friday.

Mr I. Umbach has been awarded the contract for the extension of building for the Stony Plain Garage, which will be equipped for the purpose of handling hardware and the full line of the well-known Oliver implements.

The Women's Institutes of Stony Plain Constituency held a conference on Monday last in Winterburn hall.

While driving home from threshing operations on Saturday in his bundle wagon, and on turning in to his home yard, Mr Geo. Baron had his team run away, throwing him out. He was picked up unconscious by his brother, and medical aid summoned. Dr. Walton responded; and, after an examination, had the injured man conveyed to the Misericordia hospital, Edmonton.

A sitting of the District Court will be held in Stony Plain Wednesday* Oct. 28th. Judge Crawford is due to preside. Several local people who have applied for naturalization papers, will be present.

If you intend to store your car with us this winter, arrange for a stall now, as our floor space is limited. Rates reasonable. J. H. Miller, Stony Plain Garage.

Bring British Immigrants In

There are many questions affecting national policies in Canada in regard to which it is natural there should be wide divergences of opinion, but there is one subject, immigration, upon which it should be possible to find common ground. East and West and the Maritimes may differ in regard to tariff schedules, freight rates, railway construction policies, and harbor improvements, but one and all are vitally interested in the question of population and in taxation problems.

Every Province in Canada still possesses large areas open to settlement and only awaiting people to bring them under cultivation and thus render them productive and a source of national wealth. Even the most thickly settled rural districts in Canada are capable of sustaining a denser population through more intensified farming, while in Northern Ontario and Quebec and in all four Western Provinces there are vast unpeopled areas.

On the other hand, there are some millions more people in the British Isles than there are avenues of employment open to them. The British Government is therefore obliged to support these people in idleness, while the population goes on increasing in a greater ratio than the capabilities of the country to employ and support. Nor, in the changed industrial conditions which have resulted from the war, does there seem to be any possibility of a material improvement in this situation.

In times past the United States absorbed large numbers of immigrants from the British Isles, but under its quota system the doors of the big American republic are now practically closed. There is a good and sufficient reason for this new United States policy. Population across the line has now reached over 110,000,000, and the annual natural increase is 1,500,000. In other words, every recurring decennial census shows an increase in population of 15,000,000. Before long the figure will be 20,000,000. By far the larger portion of this increase is in the cities, with the result that the United States is rapidly reaching the point where it will no longer be a self-contained and self-supporting nation, able to feed its own people. It has, therefore, and quite naturally, called a halt to immigration.

Canada, however, occupies an entirely different position. Our population is small and our territory large, and for the most part unsettled. It is open to serious question whether Canada is morally justified in rigidly restricting immigration, and holding large areas unsettled and idle, when millions in the British Isles lack employment because there is none to be had.

Canada may feel that it is not called upon to participate in the upkeep of the British Navy, and that it should not obligate itself to participate in the defence of the Empire as a whole, and in other respects should not be expected to adopt policies purely from an Empire standpoint. But when it is the Dominion it is the matter of population and vacant territory it can hardly be denied that, so long as it is part of the Empire, it has some responsibility for the welfare of all British people.

At the present time Canada could render no better service to the Empire, and incidentally to itself, than by evolving and putting into effect a well-considered plan whereby a large number of people from the British Isles could be transferred to this Dominion. Something is being done, but not nearly enough. At present we are only nibbling at immigration, instead of going into it in wholesale fashion.

True there are misfits which it would be a mistake to bring to Canada or send elsewhere. There are those who by reason of physical handicaps could not succeed in this country. There are others whose whole training is not calculated to enable them to adapt themselves to any other environment than the one they are now in. But there are thousands who could and would succeed in Canada if the means were provided to get them here and give them a fair start.

Canada's doors should be wide open to any Anglo-Saxon capable and willing to work. Let there be health tests to keep out the mentally, morally and physically defective, but the amount of ready cash an immigrant may or may not have should not be a factor deciding his or her eligibility to enter Canada.

Some Trade Unions may take a shortsighted and narrow view of immigration, timid and fearful that an influx of immigrants would jeopardize their own jobs, but past experience has proved such fears to be groundless. Western Canada, at all events, should insist that the new Parliament be elected on October 29 grapple with this question, and make provision for an entirely new and better era in immigration.

Prince Rupert Elevator

The 1,250,000-bushel government terminal grain elevator being built by Prince Rupert will be completed by November 11, when a test shipment of ten carloads of grain will be made through it.

Orange Free State Is Rich

Became Definitely British Just Twenty-five Years Ago

The Orange Free State, which the Prince of Wales recently visited, is one of the "babes" of the British empire. It became definitely British only in 1900—just twenty-five years ago.

At this place, however, the Prince saw the "shining stones" as the Bushmen call the diamonds, dug out of the earth, washed, sorted and finally weighed.

The tunnels in the mines are lighted by electricity and ventilated by compressed air, while the machinery is some of the costliest in the world.

The temptation among the workers to steal a diamond is great, yet few thefts occur.

Even if a native did steal a stone it would be of no use to him. He cannot sell it, or dispose of it easily, for all diamond dealers must be registered and licensed, and no black man dares to offer for sale a precious stone to a reputable white man.

Not only like the Orange Free State its mineral wealth, it possesses also some ten million sheep, one and a half million cattle, half a million Angora goats, a quarter of a million horses, and also over ten thousand ostriches!

Neuralgia Conquered Its Pain Destroyed

Magical Results Come When You Apply

NERVILINE

It Acts Quickly

Mr. W. T. Greenway, formerly connected with the Guide newspaper staff, has written: "For twenty years we have used Nerviline in our home, and not for the world would we be without it. As a remedy for all pain, carache, toothache, cramps and indigestion, stomach, I know of no preparation so useful and quick to relieve as Nerviline." Remember this, wherever there is pain, rub on Nerviline, and you will get prompt results—35c at all dealers.

Easy Job Pays Well

In London is one man who makes close to £10,000 a year by advising other men on what best to wear. If a man wishes to buy a complete outfit of clothing this gentleman accompanies him on his rounds of the shops and selects the proper colors, styles, etc.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These germs are abet quickly and will expel worms from the system without any inconvenience to the child.

No Imitation There

London business men to have invented American methods in a jewelry robbery. "There will be no imitation in the methods of the English courts." Toronto Mail and Empire.

Externally and Internally, it is Good.

When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will all the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

Many Auto Accidents

In United States

Records Show That Two Are Killed Every Hour In Day

The death rate in the United States due to automobile accidents leads the world, being 14.3 fatalities for every 100,000 population against 5.2 in England and Wales; 4.3 in Scotland, 4.6 in New Zealand and 3.6 in Canada during 1923. Figures for 1924 show that for 35,358 American cities, the automobile accident death rate was 12.4 per 100,000 population, causing not less than 17,400 deaths in automobile accidents, not counting accidents which involved railroads, or street cars, and automobiles.

The toll of human life taken by motor vehicles in the United States was at the rate of more than two for every hour in the day. These statistics have been compiled by the National Safety Council for presentation at the Fourteenth Annual Congress which opened at Cleveland on Sept. 22.

SUNDAY SCHOOL LESSON

OCTOBER 11

PAUL IN CORINTH

Golden Text: Be not afraid, but speak and hold not thy peace. Acts 18:9.
Lesson: Acts 18:1-17.
Devotional Reading: I, Corinthians 3:7.

The Text Explained and Illumined

Paul Supports Himself at Corinth, by the Labor of His Hands, verses 1-3.—In 61 B.C., Pompey brought Jewish prisoners to Rome, and the settlement grew rapidly. "Therius deported four thousand Roman Jews to Sardis in the hope that the malaria might kill them." Claudius came to the throne in 41 A.D. He was indebted to Herod Agrippa of Jerusalem for help in gaining the throne, and on that account he granted favors to the Roman Jews. But when the Jewish zealots of Judea revolted against the Roman rule it was not deemed safe to permit their kindred to remain in the imperial city, and Claudius issued an edict ordering all Jews to leave Rome. Suetonius, in his life the Emperor Claudius, gives another reason for the edict: "It was because they were in a state of continual tumult at the instigation of our Christians." It is thought that the Romans, hearing the name Christus (Christ) so often, supposed him to be one of the leaders of the Roman Jews. "Suetonius no doubt means that the dissensions between the Jews and Christians had already risen to such a height as to attract public attention and appear to threaten the public peace. Yet when the Jews were expelled from Rome scarcely twenty years had elapsed since the death of Christ. Paul did not arrive in Rome till ten years after this date. No other apatle had been there. The good seed had sprung up of itself. The great Roman church was founded we know not how. But for the casual phrase of a heathen historian, we should not have known that it was a strong, zealous church in the days of Emperor Claudius."

To Ship Many Cattle

The Livestock Producers, Ltd., an Edmonton firm which shipped many cattle to the Old Country market last spring, plans now to ship 29,000 head of cattle for the British market, according to plans announced by the president of the company.

The Growth Of Radio

Ten Million Sets Predicted For U. S. By Year 1930

Predicting an expenditure of \$450,000,000 for radio by the "fame" of the nation during 1929, experts have estimated that by 1930 there will be 10,000,000 receiving sets in operation in the country. Five years ago, approximately \$2,000,000 was spent for apparatus, and last year the amount had increased almost 175 times that figure. In 1923, there were 145,350 sets in use, on the farms, and one year later the number had more than doubled. At the beginning of the industry, all apparatus were assembled by the owners, but with the steady development of parts and hookups, the volume of ready-built instruments purchased increased until about forty per cent. are now sold ready to take in. To supply the more than 1,000,000 homes now equipped with receiving sets, programmes are broadcast from 563 stations.—Popular Mechanics.

The Man With Asthma almost longs for death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

B.C. Lumber Shipments

The total water-borne movement of British Columbia lumber for the first six months of the current year totals 253,911,823 feet, as compared with 260,091,968 during the corresponding period of last year. More than half of the movement, or 128,324,898 feet, went to the Atlantic coast.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Expeller.

Fingerprint system of identification has been used in China since the Han dynasty (206 B.C.-A.D. 25) according to the home ministry.

Children Cry for

**Fletcher's
CASTORIA**

MOTHER—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Increasing Interest Is Taken In Great Britain In Respect To Emigration To Canada

"This century will witness a development in Canada in a way similar and equal to the development in the United States in the 19th century," a writer in *The Outlook* declares, and he adds: "In the long run, provided the present policy is maintained, of encouraging the immigration only of the Nordic races, Canada will produce a finer nation than the one in the making in the United States, where a policy of indiscriminate admission of immigrants was pursued until recently." The same writer pleads for the encouragement of the "gentlemanly adventurer," the type of immigrant with character and a moderate capital. He deplores the fact that the young man now at home seems to be occupied mainly in dancing and games.

The *London Spectator* publishes two letters with regard to emigration to Canada. The organizing director of the newly constituted British forces for the linking-up of immigrants in the Dominion of Canada and helping them financially where this is necessary.

Country Industry In Alberta

Production Last Year Was Worth Three Million Dollars

Alberta's rapid expansion as a mixed farming province in recent years has brought about a development of branches of farming hitherto neglected, especially that of poultry raising. Three years ago this province was a heavy importer of eggs and other poultry products in order to meet domestic requirements. The farmers, realizing that poultry raising was a valuable adjunct to their regular activities, have lately increased production to such a degree that the province produced over 25,000,000 dozen eggs of a value of \$574,000. In addition some 5,200,000 pounds of live and dressed poultry, worth \$3,130,000, were handled by commercial houses, making a total production for the year of \$6,194,000.

Many Students Will Attend

Record Enrollment Expected At Alberta Government Farms

Enrollments at the three government farm schools at Vermilion, Olds and Claresholm are likely to go far beyond those of last year, and the prospects for a record registration are said to be more than good. Applications are already coming in from all parts of the province, and improved conditions among the farmers as a result of two years good crop returns are reflected in the evident desire of farm young people to take agricultural training. It is expected that the three schools will be filled practically to capacity, which means a total enrollment of 450, as against 335 last year.

Canada's Greatest Asset

Only about 15 per cent. of our available wheat lands are in use. If with so small a part of our wheat acreage in use we can be the greatest of wheat exporting countries, what a future awaits us agriculturally when fifty or seventy-five per cent. of our wheat lands are in cultivation? Wheat is the thing in Canada, the biggest thing of all. And the swiftest way to prosperity is by way of greater wheat production.—Toronto Star.

Footnote From Afar

Members of the Oxford University Arctic expedition found that they could pick up the British broadcast on a four-valve set, so clearly that they could hear the shuffle of the dancers' feet at the Savoy Hotel, London, approximately 2,600 miles away.

Reparations Paid

Germany's total reparations during the first year of the operation of the Dawes plan amounted to 1,453,000,000 gold marks, or about \$337,000,000. Out of this sum the agent-general for reparations paid to various allied creditors 592,500,000 gold marks.

W. N. U. 1897

Standard Turkey Grades

Uniform Description To Be Used By Three Prairie Provinces

Discussion of poultry grading by representatives of the three prairie provinces at a conference held recently in Regina, led to a decision to advise the federal department of agriculture that agreement had been reached on the description for turkey grades to be used in Manitoba, Saskatchewan and Alberta, this fall.

A wire sent to Dr. Orleade, deputy minister of the Dominion department of agriculture, after the conference, said the following terminology for turkey grades will be used in the three prairie provinces this fall: Specials, No. 1, No. 2 and calls.

It is expected that the Dominion department of agriculture will supply inspectors for the voluntary inspection of dressed turkey this season.

Hitherto various names have been used for turkey grades, some members of the trade using "Pinner, select No. 1, select No. 2." By the use of uniform terminology traders in Eastern Canada and the United States will know what they are purchasing and some confusion will be avoided.

The conference also discussed the question of uniform packs for dressed poultry and the proper kind of refrigerator cars for the shipment of dressed birds.

During the conference it transpired that the turkey crop this year was not going to be quite as large as anticipated and that the birds have not reached maturity as quickly as expected.

Chilled Meat Trade

Ontario Plans to Build Up Exporting Business With Britain

The agricultural committee of the Ontario Legislature is in possession of a plan to establish a "meat chilling and exporting business from Canada, with a view to supplying Britain with some portion of her fresh foodstuffs."

This plan has been submitted to the British premier and the imperial economic committee by Major Palmer, of Vancouver, and has, within the last few days, been sent to the agricultural committee from Vancouver.

Amongst other suggestions, the plan calls for the establishment in Britain of 100 retail depots for the disposal of Canadian chilled meats and other products. It suggests central and cold storage depots in Canada, and the plan, as outlined, involves an expenditure of \$9,615,000.

The agriculture committee of Ontario proposes to set through the Dominion Government for the purpose of having one or more executive representatives of the imperial economic committee come to Canada. When they arrive, the agriculture committee of Ontario will arrange to have Major Palmer, of Vancouver, on hand to attend the conference.

The plan submitted by the major caused a great deal of comment in British circles connected with the economic committee.

The first electric lamp was marketed about 1800.

Enormous Amount Of Land Held In Western Provinces To Provide Network Of Highways

What Wembley Has Accomplished

Brought Home Idea of Buying Empire-Made Goods

If Wembley has done nothing else—and could it have done anything greater?—it has brought right home to innumerable English women a sense that all the Britons are one family and that membership of it is a real partnership among our far-scattered Commonwealth.

One notices the change of attitude among women shopping. They are very keen now in their questions as to where the goods come from. One often hears a shopper say: "Are you sure it is made in the Dominion? I want empire goods."

A quick change in the contents of many shop shelves is being hastily effected to meet this new demand for everything that British and overseas manufacturers can supply. It is an imperial preference in the most practical broad-and-better form that closer trading within the empire could take. Yes, Wembley has taught us that we are all one family, and that we can "keep the money in the family" only by dealing in the empire shop.

Cheese And Also Butter

Canadian Product Is At A Premium On The British Market

Not for some years, says the *New Zealand* of the Dominion dairy and cold storage branch dated September 10, has Canadian cheese commanded as great a premium over the New Zealand product as during the past few months. Cutting off the fractions the *New Zealand* quotations are, in shillings per 112 lb: White cheese, Canadian, 97 to 99; New Zealand, 94 to 96; colored cheese, Canadian, 95 to 97; New Zealand, 92 to 95.

The *New Zealand* also calls attention to the fact that the United States is rigorously enforcing the legal standards of the composition of butter, which are the same as in Canada, namely, a minimum water content of 16 per cent. and a minimum fat content of 80 per cent.

Crop Handling Suggestion

Ben Smith Says Canadian Pools Should Enter Arrangement With British Government

That the Canadian pooling associations should arrange with the British Government to handle a fixed proportion of the Canadian crop on a five-year contract at fixed prices is one of the conclusions arrived at by Ben Smith, British labor M.P., as a result of his tour of the Dominion.

Mr. Smith also believes that British immigrants would be encouraged to settle in this country if it were possible for them to have some more community life than is now the case.

Motor traffic has focused so much attention in recent years upon roadways surfacing that little thought has been given to other features of this system of communication. The study of a road map of Canada necessarily attracts attention to the enormous amount of land that has to be reserved in each of the provinces to provide the network of highways.

In a recently issued pamphlet on the natural resources of the prairie provinces, the natural resources intelligence service of the department of the interior gives some interesting figures concerning the subdivision of the surveyed areas of Manitoba, Saskatchewan and Alberta. Of the total area already surveyed 3,234,000 acres have been set aside for road purposes, or an area two and one-half times the total area of Canada's smallest province, Prince Edward Island, which contains 1,291,750 acres.

All original surveys in the prairie provinces are made by the department of the interior, under the authorization of Hon. Charles Stewart, minister of interior. In the first system of surveys used in the western provinces the width of road allowances was established at 99 feet. Later this was found to be excessive, and the road allowance was reduced to 66 feet.

Roadways being provided at every mile east and west of north and south. Later it was found of advantage to restrict the road allowances east and west to every two miles. When applied to the area surveyed since this system was adopted it represents an enormous addition to the possible cultivable areas. It had the further advantage in reducing the cost of upkeep of highways. The cutting of weeds on the wide road allowances entailed heavy expense, and for that reason much weed cutting was neglected. These road allowances consequently became prolific weed seed distributors over the neighboring farms. The 66-foot roads have been found in every way satisfactory for the transportation of grain, and throughout the prairie provinces crops are now being grown on what under the older systems of survey would be unnecessary road allowances.

These road allowances consequently became prolific weed seed distributors over the neighboring farms. The 66-foot roads have been found in every way satisfactory for the transportation of grain, and throughout the prairie provinces crops are now being grown on what under the older systems of survey would be unnecessary road allowances.

Danish Competition In Butter

Growth Of Dominion Butter Export Trade Alarms Denmark

Leading agriculturists, farmers, dairymen, representatives of export associations and private exporters, assembled at Copenhagen, Denmark, under the presidency of the minister of agriculture to discuss the export of butter to foreign countries, particularly Great Britain. The speakers all emphasized that the heavy increase in the import of butter from the British dominions by Britain, coupled with the systematic agitation organized in England for enhanced marketing of butter from the dominions in the future, was going to greatly intensify the competition with Danish butter.

The meeting decided that every energy must be exerted to prevent any justifiable complaints against Danish butter. The minister of agriculture submitted a draft of legislation proposed to deal with the marketing of Danish dairy products. The details, however, were not divulged.

Butcher's Opportunity

Canada is a country hard to govern. But it offers grand opportunities for real statesmanship. Leadership that takes cognizance of conditions, that grasps resolutely and fearlessly with problems, that declines to drift, that puts public interest before party profit, that redresses real grievances, that practices consultation and practical conciliation, that thinks and plans and acts nationally—such leadership means more to the Dominion and its citizenship these days than any other asset in statecraft.—Toronto Globe.

A Business Woman

Being elected chairman of one of the largest catering firms in the world, Mrs. Thompson-Prior, an Englishwoman, has given proof of woman's advancement in the commercial and industrial world. This lady is also vice-chairman of a very well-known art publishing firm.

The City of Quebec as Seen from the Air

The above photo, taken by Fairchild Aerial Surveys Co. of Grand Mere, Que., gives a splendid birdseye view of the Old City showing the Chateau Frontenac in the foreground, and Dufferin Terrace, the Citadel and the St. Lawrence River winding its way up to Montreal.

Is an Adaptation of This Story

SYNOPSIS
Bush McTaggart, the factor of Post MacBain, a brutal and unscrupulous schemer, was determined to marry Nepeese, the beautiful Indian "princess," daughter of Pierrot, the trapper. He had tried of Marie, the slim Cree girl who had been his companion. McTaggart's advances were distasteful to Nepeese and aroused the enmity of her father, so the conscienceless factor plotted to do away with Pierrot, if necessary, to win his daughter for himself.

CHAPTER XI.—Continued.
He chuckled again as he made his way through the darkness to the door. Nepeese, as good as belonged to him. He would have her if it cost Pierrot's life. And why not? It was all so easy. A shot on a lonely trail—like, a single knife-thrust—and who would know? Who would guess where Pierrot had gone? And it would be all Pierrot's fault. For the last time he had seen Pierrot, he would make an honest proposition: he would marry Nepeese. Yes, even that. He had told Pierrot so. He had told Pierrot that when the latter was his father-in-law, he would pay him double price for furs.

And Pierrot had stared—had stared with that strange, stunned look in his face, like a man dazed by a blow from a club. And so if he did not get Nepeese without trouble it would all be Pierrot's fault. To-morrow McTaggart would start again for the half-breed's country. And the next day Pierrot would have an answer for him. Bush McTaggart chuckled again when he went to bed.

Until the next to the last day Pierrot said nothing to Nepeese about what had passed between him and the factor at Lac Daine. Then he told her. "He is a beast—a man-devil," he said, when he had finished. "I would rather see you out there—with her dead." And he pointed to the tall spruce under which the princess mother lay.

Nepeese had not uttered a sound. But her eyes had grown bigger and darker, and there was a flush in her

MRS. B. H. HART SICK FOR YEARS
Wants Women to Know How She Was Made Well by Lydia E. Pinkham's Vegetable Compound

Cornwall, Ontario.—"I am now giving your medicine a fair trial and I surely find it doing me good and I am going to keep on taking it. I used to feel so tired in the morning that I didn't want to get up, but that feeling is leaving me now. I also sleep better and feel more like working. For seven or eight years I have had nervousness, tired feelings, pains in my back, and all across my body. In the newspapers saying what good Lydia E. Pinkham's Vegetable Compound had done others. My husband says I quit too soon, but I am not going to stop taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine until I am better and haven't an ache or a pain. Isn't that the right way? I have great faith in your medicine. They must be good when those who take them speak so highly of them. I am accordingly answer letters from women asking about them." Mrs. B. H. Hart, Box 108, Cornwall, Ontario.

Mrs. Hart wants to help other women and is willing to answer letters from sick women asking about the Vegetable Compound.

W. N. U. 1927

Most Northerly Police Post
Will Be Constructed Next Year On Ellesmere Island
The world's most northerly police post and also the most remote of any human habitation, is to be constructed next year for the Royal Canadian Mounted Police at the far end of Ellesmere Island. Building materials and two years' supplies have been cached within easy freighting distance of the post. Three men will be detailed for patrol duty on the indescribably lonely shore of Rice Straits.

WATER EVERY MEAL
WRIGLEY'S
makes your food do you more good.
Note how it relieves that stuffy feeling after heavy eating. Sweetens the breath, removes food particles from the teeth, gives new vigor to tired nerves. Comes to you fresh, clean and full-flavored.

cheeks which Pierrot had never seen there before. She stood up when he had done, and she seemed taller to him. Never had she looked quite so much like a woman, and Pierrot's eyes were deep-shadowed with fear and uneasiness as he watched her while she gazed off into the northwest—toward Lac Daine.

She was wonderful, this slip of a girl-woman. Her beauty troubled him. He had seen the look in Bush McTaggart's eyes. He had heard the thrill in McTaggart's voice. He had caught the desire of a beast in McTaggart's face. It had frightened him at first. But now—he was not frightened. He was uneasy, but his hands were clenched. In his heart there was a smoldering fire. At last Nepeese turned and came and sat down beside him again, at his feet.

"And he pointed to the tall spruce under which the princess mother lay."

"He is coming to-morrow, ma cherie," he said. "What shall I tell him?"

The Willow's lips were red. Her eyes shone. "But she did not look at her father."

"Nothing, Noowah—except that you are to say to him that I am the one to whom he must come—for what he seeks."

Pierrot bent over and caught her smiling. The sun went down. His heart sank with it, like cold lead.

From Lac Daine to Pierrot's cabin the trail cut within half a mile of the beaver-pond, a dozen miles from where Pierrot lived; and it was here, on a twist of the creek in which Wakayoo had caught fish for Baree, that Bush McTaggart made his camp for the night.

It was a splendid night that followed. Perhaps Baree would have slept through it in his nest on the top of the dam if the bacon smell had not stirred the new-hunger in him. Since his adventure in the canyon, the deeper forest had held a dread for him, especially at night. But this night was like a pale, golden day; it was moonless; but the stars shone like a billion distant lamps, flooding the world in a soft and billowy sea of light. A gentle whisper of wind made pleasant sounds in the treetops. Beyond that it was very quiet.

In this silence Baree began to hunt. He stirred up a family of half-grown partridges, but they escaped him. He pursued a rabbit that was swifter than he. For so long he had so luck. Then he heard a sound that made every drop of blood in him thrill. It was close to McTaggart's camp, and what he heard was a rabbit in one of McTaggart's snares. He came out into a little stail open and there he saw the rabbit going through a most marvelous pantomime. It amazed him

for a moment, and he stopped in his tracks.

Wapoo, the rabbit, had run his furry head into the snare, and his first frightened jump had "shot" the sapling to which the copper wire was attached to that he was now hung half in midair, with only his hind feet touching the ground. And there he was dancing madly while the noose about his neck slowly choked him to death.

Baree gave a sort of gasp. He could understand nothing of the part that the wire and the sapling were playing in this curious game. All he could see was that Wapoo was hopping and dancing about on his hind legs in a most puzzling and unaccountable fashion. It may be that he thought it some sort of play. In this instance, however, he did not regard Wapoo as he had looked on Umisk the beaver. He knew that Wapoo made mighty fine eating, and after another moment or two of hesitation he darted upon his prey.

McTaggart had heard no sound, for the snare into which Wapoo had run his head was the one set farthest from the camp. Beside the smoldering coals of his fire he sat with his back to a tree, smoking his black pipe and dreaming covetously of Nepeese, when Baree continued his night wandering. Baree no longer had the desire to hunt. He was too full. But he stood in and out of the starlit spaces, enjoying immensely the stillness and the golden glow of the night. He was following a rabbit run when he came to a place where two fallen logs laid a trail no wider than his body. He quipped through; something tightened about his neck; there was a sudden snap—a swish as the sapling was released from its "trigger"—and Baree was jerked off his feet so suddenly that he had no time to conjecture as to what was happening.

The yelp in his throat died in a gurgle, and the next moment he was going through the pantomime actions of Wapoo, who was having his vengeance instilled into him for the life of him Baree could not keep from dancing about, while the wire grew tighter and tighter about his neck. When he snapped at the wire and flung the weight of his body to the ground, the sapling would bend obediently, and then—in its rebound—would yank him for an instant completely off the earth. Furiously he struggled. It was a miracle that the fine wire held him. In a few moments more it must have broken—but McTaggart had heard him! The Factor caught up his blanket and a heavy stick as he hurried toward the snare. It was not a rabbit making those sounds—he knew that. Perhaps a fisher-cat—a lynx, a fox, a young wolf.

It was the wolf he thought of first when he saw Baree at the end of the wire. He dropped the blanket and raised the club. If there had been clouds overhead, or the stars had been less brilliant, Baree would have died as surely as Wapoo had died. With

the club raised over his head McTaggart saw in time the white star, the white-tipped ear, and the jet black of Baree's coat. With a swift movement he exchanged the club for the blanket.

In that hour, could McTaggart have looked ahead to the days that were to come, he would have used the club.

CHAPTER XII.
Half an hour later Bush McTaggart's fire was burning brightly again. In the glow of it Baree lay trussed up like an Indian papoose, tied into a balloon-shaped ball with babble tongs, his head alone showing where his cap had cut a hole for it in the blanket. He was hopelessly caught—so closely imprisoned in the blanket that he could scarcely move a muscle of his body. A few feet away from him McTaggart was bathing a bleeding hand in a basin of water. There was also a red streak down the side of McTaggart's halibut neck. "You little devil!" he snarled at Baree. "You little devil!" He reached over suddenly and gave Baree's head a vicious blow with his heavy hand.

"I ought to beat your brains out—and I believe I will!"
(To be continued.)

"DIAMOND DYES"
COLOR THINGS NEW
Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silk, ribbons, shirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything! Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, whether it is linen, cotton or mixed goods.

The Westward Flow
Vancouver hopes to ship 100,000 bushels of this year's crop. This would about double the city's previous record in grain shipments. Six years ago Vancouver was not shipping a bushel of grain.

Other cities on the coast will participate in grain shipments as they acquire the necessary facilities.

Thus has the Panama Canal and the awakening of the Orient changed the flow of trade.—Financial Post.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would be without a household medicine. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

Enjoyed the View
Officer (to couple in parked auto): "Don't you see that sign. 'Fine for parking'?"

Driver.—Yes, officer. I see it, and heartily agree with it."

Minard's Liniment for Sore Back.

Many Rural Phones
According to the annual report of the government telephone service, there are two rural telephone subscribers to every urban subscriber in the province of Saskatchewan, a situation which is found in only four states in the United States.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

Why It Was This
Hubbard.—"The soup served at our dinner last night was very thin."
Mrs. Swinton.—"Yes, dear, that was so that the guests could see the beautiful monogram on our plates."

"Why were you so willing to send your wife back to her old home town for a visit?"

"Oh, I wanted her to get a good look at some of the men she could have married."

Would Camp in Tonquin Valley

Wonderful Climbing Field Found in Jasper National Park
That the Tonquin Valley district of Jasper National Park offers one of the best climbing fields of the entire Canadian Rockies, where experienced climbers will find many splendid peaks worthy of their best efforts, was the statement made to members of the Canadian National Railway station at Jasper at a recent meeting by Dr. J. W. A. Hilkson, of Montreal, president of the club. Dr. Hilkson spoke on the 1925 camp in the Southern Rockies and urged that the 1926 annual camp be held in the Tonquin Valley. There, he said, the members of the club would find such peaks as Redoubt, Barbeau, Turbot and Gekie awaiting the hardened climbers; and there also many more unclimbed peaks awaiting conquerors. At the same time, there were many fairly easy peaks which could be used for graduating climbs. The Tonquin Valley, he explained, was easily reached from the Canadian National Railway station at Jasper in a one-day journey and on arrival there the members would find one of the best, if not the best, climbing fields in the entire Canadian Rockies.

MAKE CARE OF BABIES EASIER

Baby's Own Tablets Are a Great Help to Mothers of Young Children

Stomach discomfort and constipation are responsible for much of the peevishness of babies. The modern mother does not resort to acrid, irritating mixtures but corrects the trouble by sweetening the little stomach with a gentle laxative that causes no griping. Such a remedy is found in Baby's Own Tablets, easy to take and guaranteed to be free from opiates or narcotics.

Every mother who tries Baby's Own Tablets becomes enthusiastic about them. Mrs. Oscar Auer, Holyoke, Mass., says:—"I have used Baby's Own Tablets and think them a splendid medicine for constipation and other ailments which affect little ones. I have no hesitation in recommending them to other mothers." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont. A little booklet, "Care of the Baby in Health and Sickness," will be sent free to any mother on request.

Pera is trying to export eggs to the United States in order to increase the price there, which is only 10 to 12 cents a dozen.

FOR "Cholera" Infantum" MOTHERS SHOULD USE

D'FOWLER'S EXT-O-F WILD STRAWBERRY
This valuable preparation has been on the market for over 50 years, and has no equal for effecting the vomiting, purging and diarrhea of cholera infantum.
Put up only by The T. Milburn Co., Limited, Toronto, Ont.

MANY CHARGES ARE LAID AGAINST FRUIT CONCERNS

Vancouver—Eight hundred and thirty-three charges involved in an indictment of 16 counts against 42 fruit firms and 11 individuals in British Columbia, Alberta, Saskatchewan and Manitoba, were handed to the grand jury at the assize court here this afternoon by Mr. Justice D. A. McDonald, presiding judge.

Theft, fraud, falsification of books for purposes of debt, market juggling and price manipulation, restraint of trade, interference with sound business competition, syndicate and general conniving to cheat the grower and the consumer, with serious injury to the fruit growing industry in Canada, are contained in the charges.

Trial of the fruit interests of Western Canada in Vancouver will take place at the instigation of the federal department of justice.

The jurisdiction of the court has been extended to cover territory ranging from the coast to Winnipeg, and J. C. McRae, Toronto lawyer, has come to Vancouver to prosecute for the crown. The indictment will remain with the grand jury, it is expected, for several days before a bill is returned.

Says Disaster Could Have Been Avoided

Accident to Shenandoah Is Blamed on Chief Officer

Lakehurst, N.J.—The disaster to the alrship Shenandoah was "entirely and very easily avoidable," Captain Anton Helen, former German Zeppelin pilot, declared before the naval court of inquiry here.

"Do not your criticism apply to the handling of the ship on this occasion?" asked Rear-Admiral Jones, president of the court.

"It does," Helen said.

"Whom do you hold responsible?" Helen paused. "I hold responsible the man in charge of the ship during the flight," he finally said.

Plot Against King George Is Denied

Scotland Yard Says Report Is Absolutely Without Foundation

London.—Conspiring, their holiday at Balmoral, King George and Queen Mary have returned to Buckingham Palace. A published report that an attempt to assassinate the British ruler had been revealed to Scotland Yard was characterized by officials of that organization as a "flat canard." The home offices also told the United Press that the report was "absolutely without foundation."

Communism Rampant in England

New York.—Lady Cowan, president of the British Women's Patriotic League, and wife of Sir Henry Cowan, inter-parliamentary union delegate, said that British Communists have established Sunday Schools throughout England for the purpose of undermining the faith of children in God and the government. Communism, she said, is stronger in England than in almost any other European country.

Nova Scotia Has Big Deficit

Halifax.—The Halifax Herald in its news columns says: "Deficit on current accounts of two millions, possibly more, a gross debt that may reach \$25,000,000; these are the appalling figures that face the people of Nova Scotia for the fiscal year 1926, which closed Sept. 30, according to statements made by Hon. G. S. Harrington, premier and provincial secretary-treasurer."

No Crop Failures

Winnipeg.—Not one crop failure in the province of Manitoba during the 1925 season, is the report of the provincial department of agriculture. Wheat averages 19½ bushels to the acre and oats 4½.

To Vote At 93

Winnipeg.—Ninety-three years of age, Catherine Coleman has registered her name on the list of electors for the coming election.

W. N. U. 1597

Australian Treaty Becomes Effective

Canada Gets British Preferential Rates On Certain Articles

Ottawa.—The Australian trade treaty became effective Oct. 1.

It went into effect in Canada and Australia simultaneously, and Canadian dealers in commodities affected by the rates provided for in the new treaty have been notified.

Under the new agreement, Australia gives Canada British preferential rates on certain articles, and intermediate tariff rates on other commodities.

Canada grants to Australia special rates on a number of articles, including raisins and dried currants. These enter Canada free, under the treaty, while under the general tariff they are subject to a duty of three cents a pound.

Mitchell Launches Charges

Delivers Verbal Bombshell At U. S. Investigation

Washington.—Condensing all of his previous charges into one verbal bombshell, Col. W. Mitchell concluded his testimony before the president's air board by charging the navy with "amateur bungling" of its last three major aeronautical projects.

In rapid succession, the former assistant army chief told the board that incompetency and mismanagement by the navy sent the dirigible Shenandoah to its doom on a "propaganda mission," to the middle west, that tropical type planes were given navy status with the MacMillan Arctic expedition and that the Hawaiian flight was attempted with a gas supply known to be inadequate.

Rapid Growth Of Wheat

Time Is 113 Days From Seeding To Lakehead Delivery

Saskatoon.—Just 113 days after he put the seed in the ground, wheat grown on the farm of Bert Clearwater, near here, has been unloaded at Port Arthur. Mr. Clearwater began his seeding operations May 17 of this year and finished threshing August 29. His grain had been unloaded at the lakehead September 7. The wheat, which was sown on spring ploughing, yielded 24½ bushels to the acre. Mr. Clearwater maintains this is a new speed record for Canada.

Estimate of Wheat Crop Higher

Regina, Sask.—Saskatchewan's wheat crop, now that threshing is well advanced, is turning out far better than estimates compiled as late as August 12 would indicate. J. W. Beatty, chairman and president of the Canadian Pacific Railway, in an interview here, placed the crop now being taken off in this province at 240,550,708 bushels. His estimate in early August was 205,000,000 bushels.

Will Break All Records

Winnipeg.—"Without a doubt all previous records for the movement of grain from the head of the lakes will go by the boards this season before freeze-up," said L. H. Boyd, chairman of the board of grain commissioners, who is enroute west to inspect elevators. Mr. Boyd also expects Vancouver to get a good share of the 1925 crop.

Delayed By Bad Weather

Spezia, Italy.—George H. C. Smythe, Canadian canoeist paddling from Naples to Leningrad, Russia, on a wage of 10,000 lire, has been forced to put into Porto Venere Roads because of bad weather. Smythe left Naples August 18 on his present voyage. He recently paddled from Dover to Rome.

The Argentine Navy

Buenos Aires.—It is reported that the Argentine Senate in secret session has given its assent to an expenditure of 15,000,000 gold pesos for armament and repairs to the Argentine navy. A bill providing this expenditure recently was sent to Congress by President D'Alvarez.

Irish Visitor Is Assaulted

Philadelphia.—Richard Mulcahy, minister of defence in the Irish Free State, was struck in the face by a group of men and women at Independence Hall, while visiting the building with other members of the inter-parliamentary party. About fifteen arrests were made.

OPPOSE MOVE TO RESCIND GRAIN RATES TO WEST

Ottawa.—G. G. McLeer, K.C., counsel for British Columbia, maintained before the railway commission, in opposing the application for rescission of the McKewen-Oliver order on westward grain rates, that under that order the railway companies would gain rather than lose. He asserted that the rate for a 640-mile haul to Vancouver was 21 cents, while on a 1,250-mile haul to Fort William it was 25 cents. Without going into the point at this time, Mr. McLeer declared that the rate to Vancouver should be 18 cents instead of 21 cents.

The railway companies, Mr. McLeer argued, should be pleased with Vancouver's effort to relieve them of the long unprofitable haul from Alberta to Fort William. The westward traffic would be more profitable to them. He contended also that removal of discrimination against Vancouver would bring to Canada business now going to Buffalo and to American railways.

The British Columbia counsel declared that the grain trade of Vancouver was being seriously disrupted through not knowing what the rate was to be and he asked that the application be dismissed at once. If the board could not see its way clear to dismissing it, at least a decision, whatever it was, should not be delayed.

Child Welfare Conference

Divergent Views on the Question of Juvenile Immigration

Ottawa.—Charges against conditions of juvenile immigration were freely flung at the Child Welfare Conference here. A rough division of the speakers for and against would place the representative of the Barnardo Homes, Percy Roberts and those of the department of immigration on one side, while provincial men in charge of delinquency clinics, social workers, both professional and voluntary, and at least one mental expert ranged themselves against juvenile immigration as it had been conducted. The result was that the Child Welfare Council proposed to conduct an impartial survey of a given number of such immigrants over a period of years.

Floods in Tokio

Tokio.—Another severe rainstorm swept Japan, flooding many thousands of houses in Tokio and other cities. Several were killed and injured by landslides. The water entered the Imperial Hotel, Tokio, shutting off all lights and water supply temporarily.

New Canadian Prima Donna

This is Miss Loretta McEwen, soprano, chosen out of a hundred Canadian competitors, as possessing the greatest possibilities for an operatic career. With her is Captain Clew, of the Canadian Pacific liner Melita. Miss McEwen is on her way to Paris to study her art, under Madame Pauline, world-famed songstress.

The competition in which Miss McEwen was successful, was held recently in Montreal. Voices from all over the Dominion were heard by Madame Donald, who adjudicated.

Miss McEwen possesses a soprano voice of great range and power, is a good actress, well educated, speaks French and English fluently and is conversant with Italian and Spanish. Madame Donald has expressed the opinion that there is a great career before the singer just brought into the limelight.

Miss McEwen is the daughter of Mr. William McEwen, of Outremont, Montreal. On her father's side the descent is Scotch, and on her mother's it is French. "I hope I shall bring credit to Canada," were her farewell words to friends seeing her off on the Melita, which sailed from Montreal.

American Editors Interested

Trip Through Western Canada Described By R. J. C. Stead

Ottawa.—What proved to be most interesting to a group of American agricultural editors in a trip they took through the Canadian west recently were the prairie forests, the public buildings, the government experimental farm at Brandon, Man., evidence of co-operative merchandising, grain elevators, laying, natural gas at Medicine Hat, the irrigation scheme at Brooks, Alta., and the ranch of the Prince of Wales. So stated R. J. C. Stead, director of publicity for the department of immigration, in advising the Rotary Club here. Mr. Stead accompanied the party of editors on their trip. The enormous crops seen enroute were also the subject of much admiration by the visitors. Mr. Stead said.

Church union was among the matters upon which inquiries were frequently made by American editors, also the enforcement of liquor laws.

Probes Alleged Communist Plot

Hungary Investigates Report That Leading Officials Would Be Assassinated

Budapest, Hungary.—The police have concluded their investigation of the alleged Communist plot to assassinate leading officials and establish a dictatorship in Hungary, and forwarded their report to the public prosecutor. More than 100 persons were arrested in the city for alleged connection with the plot.

The police now are searching for three Communists, suspected of having brought a large sum of money in dollars into the city to carry out their machinations. The identity of sixty of those arrested have been verified. Photographs of the leaders, together with a detailed report of the plot will be sent to all foreign police authorities.

Wheat Pool Grows

Regina.—If the present flow of contracts to headquarters is maintained the Saskatchewan Wheat Pool will have ten million acres of wheat under contract by Christmas. The estimated acreage sown to wheat in Saskatchewan this year is 13,002,741 acres, while up to the end of September there were 67,861 contracts in the pool covering 9,118,345 acres.

Dunning Invited To Ottawa

Ottawa, Ont.—Premier King's announcement that after the election when further cabinet re-organization is effected he will invite Premier Dunning to come into the cabinet, conforms to the gossip here for some time. The addition of such men as Hon. Vincent Massey and Mr. Dunning would further strengthen the cabinet already revitalized in recent weeks.

URGE EXTENSIVE DISSEMINATION OF EMPIRE NEWS

Melbourne, Australia.—After a lengthy discussion, the Imperial Press conference passed a resolution urging the more extensive publication of news of the empire in the press of Great Britain and the British dominions. This resolution was introduced by Sir Hugh Denton, former member of parliament for Adelaide, South Australia, and chairman and managing director of the Sun Newspapers Limited. The resolution as carried included an amendment to the effect that all members of the conference pledge themselves to the practical encouragement and increased publication of inter-empire news.

The delegates to the conference listened with great interest to the address by J. H. Woods, of the Calgary Herald, president of the Canadian Press, on the system of coordination of news gathering and distribution of that organization. Mr. Woods suggested that the experience of successful operation of the Canadian Press would be found useful by the newspapers in other parts of the British empire. He described briefly the wire transmission system of the association of which the press conference also efforts made to extend its news gathering service.

Mr. Woods stressed the fact that the dominions had a duty on an equal with the duty of Great Britain to all the dominions, and announced good applause that negotiations were in progress for the exchange of more news between Canada and Australia and New Zealand by cable and mail.

Send Greetings To Press Conference

Canadian Publishers Broadcast Message to Melbourne, Australia

Pittsburg.—Canadian greeting to the Imperial Press conference meeting in Melbourne, Australia, were broadcast Sept. 10 by the Canadian Press, and a short wave relay. The messages were to be heard at the evening session of the conference owing to the difference in time, by means of loud speakers.

The greetings included messages from Lord Atholstan, owner of the Montreal Star; Hon. Smeaton White, of the Montreal Gazette; and Hon. P. Du Tremblay, La Presse, Montreal.

To Prevent Smuggling

Steps Taken to Curb Liquor and Smuggling Traffic

Ottawa.—Measures for the suppression of smuggling between Canada and the United States approved recently by the governments of the two countries, were made public tonight. Provisions are announced to prevent clearance of small motor boats and similar craft for ports in Cuba or Mexico, where it is suspected that the cargo is intended to be smuggled into the United States or Canada; and for the exchange of information regarding persons engaged in the narcotic traffic.

Clemenceau Celebrates Birthday

Nantes, France.—Georges Clemenceau, France's war-time premier, celebrated his eighty-fourth birthday here. The "celebration" consisted of placing at the calendar for a moment and returning to work. "Tiger," who is keen-eyed, grim, hale and hearty, is busy writing a work on philosophy, dealing with the conception of God through the ages.

A Unique Trail

Anchorage, Alaska.—A tree trail, 500 miles long, stretches across the bleak Alaskan hills as a tribute to the natives' ingenuity. The trail was made by setting willow posts, which took root and grew into trees. Every now and then along the route native characters and English words denote distances from various camps and villages.

Turks Are Refrustrating

Constantinople.—Four classes of recruits, ranging from the ages of 23 to 25 years, have been called to the colors. The officers of the first and second reserves are to undergo medical examination.

Unveiling The "Altar of Peace" at Vancouver

The President Harding International Good-Will Memorial located in Stanley Park, Vancouver and erected by Kiwanis International through the voluntary subscription of its 35,000 members in the United States and Canada, was unveiled by John H. Moss, president of a large gathering of both United States and Canadian government officials and members of Kiwanis.

The memorial was designed by Charles Macge, a well known Italian sculptor of Vancouver. When the scheme was first decided upon, it was the intention of the American Kiwanis Clubs to raise the funds on their side of the border and to present the memorial to Canada. Canadian Kiwanis, however, insisted upon contributing towards the fund and the memorial was thus erected by the joint efforts of the United States and Canadian clubs.

At the unveiling ceremony, the Dominion Government was represented by Hon. Dr. J. H. King and Dr. G. T. Harding, brother of the late president. United States Kiwanis was represented by International President John H. Moss, and International Past President Victor S. Johnson and Edmund F. Arras. The Canadian Pacific Railway was represented by Frank W. Peters, General Superintendent at Vancouver. Several of the United States delegates stayed over at Banff and Lake Louise and other points in the Canadian Pacific Rockies before proceeding to Vancouver. The memorial itself is throughout a made-in-Canada product, being designed by Canadians and made of Canadian marble and by Canadian labor.

The site of the memorial is the spot where the late

President Harding made his last public speech, when just before he died in 1923 he visited Canada. Warren G. Harding, late president of the U. S. A. was a charter member of the Kiwanis Club at Marion, Ohio, his home town.

An extract from the speech made by the Chief Executive of the United States on that occasion, written in bronze for the memorial, and the possible text of many a murmured prayer of hope of the cosmopolitan tourist who reads it as he passes through the park, is as follows:

"What an object lesson of peace is shown today by two countries to all the world. No grim-faced fortifications mark our frontiers, no huge battleships patrol our dividing waters, no stealthy spies lurk our tranquil border hamlets. Only a scrap of paper, recording hardly more than a simple understanding safeguards lives and properties on the Great Lakes, and only humble mileposts mark the inviolable boundary-line for thousands of miles through farm and forest.

"Our protection is in our fraternity, our armor is our faith, and the tie that binds, more firmly each year, is ever-increasing acquaintance and comradeship through interchange of citizens; and the compact is not parchment, but of fair and honorable dealing, which, God grant, shall continue for all time."

The memorial, which is known as "The Altar of Peace," has been referred to as the only material symbol of fortification, outside of mileposts, to outline the invisible demarcation of thousands of miles of border line separating the two countries from the Atlantic to the Pacific.

HOLIDAYS OVERSEAS ATTRACT MANY CANADIANS

CHRISTMAS at home has a charm for the average Briton that is not to be denied, for nowhere in the world is there a greater observance of the old Yuletide customs than that which prevails in the British Isles. Friends and relatives of those who have come to this country to make their home in the new Dominion, look forward every year to the coming of the winter season, knowing that this is the time when the people of Western Canada have the time at their disposal for lengthy holidays necessary to enjoy ocean travel.

This year passenger travel to Great Britain and to other continental countries, promises to be heavier than for many years, according to officials of the Canadian

National Railways in Western Canada, who state the preliminary inquiries already received indicate that more people are figuring on holidays abroad during the coming winter than for some time. Accordingly, officials of the National System are now making their plans for the handling of such business and the provision of Canadian National service between Western Canada and the Atlantic seaboard for the convenience of those who plan overseas trips. Canadian National agents at all points will again ticket passengers on all steamship lines, and, as the traffic warrants, special trains carrying both day coaches and sleeping cars will be operated from various western points direct to the boats' side at Montreal, Quebec, Halifax and other ports.

The charm of English scenery, coupled with that of old associations, draws just as strongly today as ever, and to many a Western Canadian, these winter holidays give the one opportunity of visiting the old homeland scenes and mingling again with childhood friends and with those members of the family left behind when he or she sailed for Canada to find a home in the new Dominion.

Rates and dates of sailings and special trains will shortly be announced by the Canadian National Railways.

Photographs show: (1) Edinburgh Castle; (2) Shakespeare's Birthplace; (3) One of the great ocean liners which carries C.N.R. passengers overseas.

CARL FISCHER.

Stony Plain and District.

In Stony Plain, Sept. 28th,
to the wife of Mr. Joe Mayer,
a son.

At Brightbank, Wednesday,
Sept. 30, to the wife of Mr.
K. M. Mickelson, a son.

At Spruce Grove, Monday,
Oct. 5th, to the wife of Mr.
John Schuetz, a daughter.

At the local Court Tuesday
evening, Jack Basanta (known
as the Hindu) was committed
for trial on a charge of obtain-
ing money and goods from a
local storekeeper on a false
pretence.

Holborn U.F.A. are putting
on a dance in their hall Fri-
day Oct. 16.

The Women's Institute are
putting on a play, "Aunt
Mary's Family Album," in the
hall on Friday October 23d.
Keep this date open and watch
for further announcements.

Mr. Knight, the Edmonton
surveyor, has been surveying
that piece of road from David-
son's corner east, with the ob-
ject of opening it thru to the
Meridian road.

The big campaign is now
on in this district for new
members to the Alberta Wheat
Pool, and the many canvass-
ers report good results. The
campaign remains open till
December, and it is expected
by that time, or before, the
name of every wheat producer
will be on the list. For the
convenience of those wishing
to join the Pool, contract
forms may be obtained at The
Sun office.

The municipal hail insur-
ance rate for 1925 has been
set at 7 per cent, the same as
last year. The volume of busi-
ness written in, was about 25
per cent greater than in 1925,
while the losses were almost
50 per cent heavier.

Bird game, big game and
trappers' licenses on sale at
The Sun office.

Rosenthal.

With great pleasure we an-
nounce the completion of the
new church building being er-
ected by Immanuel's Evangel-
ical Lutheran congregation at
Rosenthal.

On Sunday, October 18th
the new house of worship will
be dedicated to its purpose.
Divine services will be held
at 10.45 a.m. and at 3 p.m.
The Rev. W. Wahl, of Strath-
cona will occupy the pulpit in
the forenoon, and the Rev. P.
Hamman of Golden Spike in
the afternoon. The local pastor
Rev. G. Poetzsch, will also ad-
dress the gathering.

All friends of the congrega-
tion are heartily invited to at-
tend. Come, and help us cele-
brate!

Nov. 1 to March 31.

Golden Spike Old-timer Dies.

An old-timer of the Golden
Spike district passed away in
an Edmonton hospital on Sat-
urday last, in the person of
Mr. Peter Hollinger. Deceased
was in his 66th year, and
had been ailing for some time.
Mr. Hollinger came to the
district in the year 1899, had
been farming there since that
time, and had the reputation
of being an enterprising and
industrious farmer. Interment
took place on Tuesday at Golden
Spike cemetery, and was
very largely attended by those
in the district.

DANCE!

Friday, October 16th.

HOLBORN HALL.

Barth's Orchestra.

EVERYBODY WELCOME!

Hall's Corner

It's all right to slap a girl now.
You can claim you are seeing if
the pants is dry.

It certainly is agreeable at
this time of year for the thrashers
whistling to sound reveille imme-
diately after a threshing's gotten into
bed.

The Wily Swindlers.

It's about this time of year,
when farmers are so opposed to
have money, that the confi-
dence man usually shows up
in rural centres.

Anyway, farmers in the
Provost district had a visit
last week from two antelopes
of these fellows, who repre-
sented themselves as agents
of a syndicate of wealthy farm-
ers in the U.S. anxious to
come to Canada.

The operators claimed that
the buyers would pay the
commissions on the farms
purchased; they were merely
asking for listings of farms in
the district, and wanted the
price of these put up high.

It sounded good enough,
and farmers in any other dis-
trict would probably have
fallen for it, too.

All that was asked was
that each farmer who listed
his farm pay \$10, to cover the
cost of handling and listing
charges.

As some hundred farmers
gave their listings, the fellows
picked up a cool \$1000 for
their day's exertions.

The office address in Ed-
monton which the operators
gave proved to be fictitious.

Stony Plain Cash Store.
